HiFLAP

HiFLAP TECHNOLOGY: STABILITY WITH EVERY STEP

The Run@Work collection showcases the innovative HiFlap technology. HiFlap technology uses two devices that function automatically and independently to **enhance movement and ensure stability in every position.**

HiFlap offers enhanced **support** to the foot,

particularly in cases of excessive pronation or supination, aiding better grip on various surfaces to promote natural movement.

The **additional heel** support at the back of the shoe enhances stability, providing increased support and comfort at the heel.

ADVANTAGES

- >> *HEEL STABILISATION*
- >> *PREVENTION OF ANKLE SPRAINS*
- >> *PROTECTION OF JOINTS AND MUSCLES*
- >> *SUPPORT FOR CORRECT POSTURE AND FOOT ALIGNMENT*
- >> *PREVENTION OF EXCESSIVE INCLINATION*
